A Skillful Art

Is watch repairing, and the skillful repairer is close akin to the manufacturer. I combine both. If you have a fine or common watch, and any part is broken or lost I can replace it. You may have a watch that you think can't be made to keep good time. It may be because you have never placed it in skillful hands. If so, let me see it. If it can be made into a timepiece, I can do it.

BLACK SPOTTED TROUT.

Received Sunday From the Government.

Distributed Among the Brooks and Streams of Marion County by the Rod and Gun Club.

The long expected consignment of black spotted trout was received at Salem Sunday and was taken in charge by a committee, consisting of J. A. Richardson, C. D. Gabrielson, and J. C. Griffith, from the Salem Rod and Gun Club.

Teams were in readiness and the young fish were immediately escorted to their future homes, and deposited therein as soon as possible.

E. C. Cross and Joe Baumgartner took a lot in the direction of Turner, Roscoe Shelton went to Silverton and Dr. Griffith went toward Pudding river.

Among the streams reached and stocked with the little beauties were Drift Creek above Turner, Silver Creek at Silverton, Beaver Creek, Battle and Mill Creek. The lake at the upper end of Pudding river was supplied, and Judge Davidson was given some to put in the brook at his place south of town.

The state of the roads was such that the Abiqua could not be reached, but the fish will undoubtedly find their way into all the waters of the county from the streams in which they were placed.

The fish were about one inch and a half in length, and were lively and apparently in good condition.

They came in five large tanks, and the number was estimated at 10,000 by a member of the committee, though that is more than were asked for.

None were placed in the river, as the voracious black bass would make short work of them there.

The Rod and Gun club are endeavoring to get from the government a supply of Rainbow trout with which to stock the river, as this variety is said to be able to take care of itself, and would not fall victim to the various carnivorous monsters with which an over-zealous sporting spirit has caused our streams to be infested.

SEDGWICK RELIEF CORPS.

Order of Patriotic Women Was Inspected and Made a Fine Showing

Mrs. Mondana C. Thorpe, of Corvallis, department inspector of the W. R. C., was present and inspected the Salem corps Saturday at 2:30. There was a good attendance and the records of the ladies showed their order to be in a flourishing condition. Mrs. Thorpe was entertained over Sunday at the home of Mrs. Geo. W. Davis, and departed for Corvallis, but will visit Albany, Mehlman and Lebanon first.

Public School Telephones.

Telephones were placed today in the four principal school-houses of Salem. In the east school the instrument is in city superintendent Yoder's office. In the three other schools the instrument is in the hallway of each. A system will no doubt be adopted by which a prompt alarm can be turned in, in case of fire. The wide extension of the telephone lines makes it imperative that the city adopt some regulation for turning in fire alarms over the telephone, in the absence of a fire alarm system which the city cannot afford at present.

Social Mask Party.

Saturday evening the initial of a series of social dances was given by the Royal Neighbors, No. 360. The party was a masquerade of invited dancers and spectators. Two prizes were offered, the one to the best lady and gentleman waltzer. The dancers capturing the laurels were Miss Pearl Ellis and Mr. H. T. Mann. The judges were Chauncey Lockwood, E. Hofer and J. A. Basy. All seemed to enjoy themselves hugely. Many played a social game at whist in the adjoining hall. The music was furnished by the Genser orchestra.

HOP GROWERS

Meer At Woodburn Wednesday Oct. 25 At 10 Forenoon.

Adjourned Session of the Willamette Valley Hop Men To Complete Their Organization.

The indications are now favorable to the successful organization of a Willamette Valley Hop Grower's organization at Woodburn next Wednesday, Oct. 25th.

The way the solid substantial farmers, who grow from ten to forty acres of hops are going into it, it is to be strictly a farmer's organization for mutual co-operation and self-protection. Every hop grower who can reach Woodburn next Wednesday should be there.

It is a most critical time in the history of the hop industry in Oregon and some action on the part of the growers seems to be imperative at this time.

The custom of contracting a large part of the crop in advance, the formation of large combinations by growers who are also dealers in hops, the decline in production in New York, the quality and quantity in Europe, all raise problems that require consideration and action on the part of the Oregon grower.

The exclusive full report of the large meeting of the hop growers at Woodburn last Wednesday appears in this week's JOURNAL—THE WEEKLY JOURNAL, and every hop grower should take that paper at \$1. a year, and keep posted on the Willamette Valley organization. It will contain the only exclusive official report and all reliable information about sales and prices. THE DAILY JOURNAL also contains the proceedings of the Hop-growers' Association and all the news of sales, crop contracts and prices. DAILY JOURNAL four months by mail for \$1. No papers sent beyond the time for which you pay.
